OF EMERGENCY SERVICES

# **SITUATION SUMMARY**

## **Reed, Vegetation Fire - Calaveras County**

Location of Incident: 320 George Reed Drive, San Andreas

Jurisdiction: SRA

Start Time: 15:27

- 120 acres, 75% Containment
- Forward rate of spread has been stopped
- 30 Structures threatened
- Evacuations have been lifted for Saddleback Subdivision, Howell Road and Maggrs Road.
- Shelter at San Andreas Town Hall, 24 Church Hill Road in San Andreas has been closed.

## **680 Fire, Solano County (Final)**

Location of Incident: Central Road and Pitman Road in the City of Fairfield

Jurisdiction: LRA

Start Time: 1632

- 10 acres grass, 100% containment
- 2 Structures destroyed
- All CAL FIRE resources released

# **SITUATION SUMMARY**

## **Stony Incident - Vegetation Fire - Fort Hunter Liggett (DOD) - Monterey County (Final)**

The Stony Incident is burning on Federal property near Nacimiento-Fergusson Road and Stony Valley on Fort Hunter Liggett in Monterey County.

- 5000 acres and 100% containment
- The fire began on a US Army firing range and is confined to base property
- There is no structure threat
- Cal Fire and USFS resources assisting
- No Local Government resource commitment at this time
- Cal OES FDO is monitoring the incident

## **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

High pressure off the coast of California will continue to be in control of our weather with dry and seasonable temperatures into the middle of next week. Mostly sunny inland with some overnight and morning clouds along the coast north of the cape and the lower portion of the Eel River.

#### **San Francisco Weather:**

Little change in the weather pattern is expected through the next several days. Areas of night and morning low clouds and fog will mostly be limited to near the ocean. Inland areas will remain warm and dry with above normal temperatures. An upper level trough will move into the Pacific Northwest next Thursday. This trough may produce rain across far northern California.

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY**

#### **Sacramento Weather:**

Occasional high clouds with temperatures slightly above normal through middle of next week with locally breezy winds at times in the Delta and over higher terrain. Late next week, a trough may bring a threat of thunderstorms to the northern mountains.

#### **Hanford Weather:**

A dry westerly flow aloft will reside over the central California interior during the next several days with a continuation of above normal afternoon temperatures.

## **WEATHER SYNOPSIS BY REGION: (Cont.)**

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

The high will bring fair skies to most areas except for night to morning clouds and fog on the coast into next week. The coastal temperatures will be around normal, and inland areas will be above normal into next week, with the warmest days Monday and Tuesday. A low system will approach towards the end of next week.

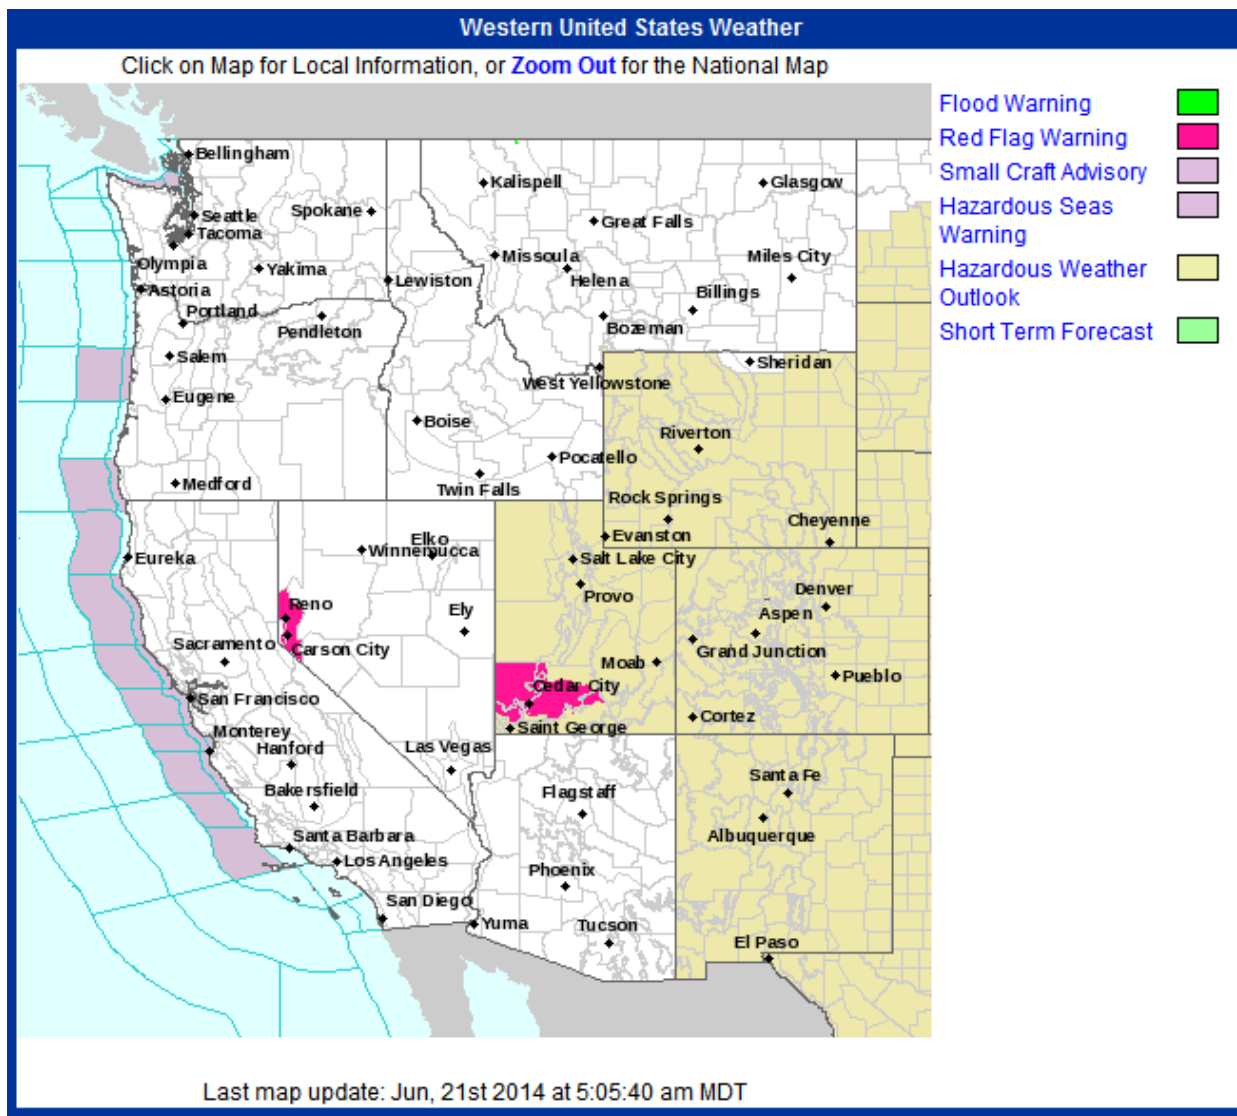

#### **Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

Seasonal weather with onshore flow will continue for the next week with gusty west winds in the mountains and deserts each day for late afternoon through late at night. Areas of night and morning coastal low clouds and fog will spread locally inland. Through Monday, slight cooling and slight deepening of the marine layer, a little warmer for Tuesday, a little cooler for Wednesday and Thursday, followed by minor day to day differences into next weekend.

#### **Southeast California Weather:**

A much drier and warmer air mass is on tap this weekend as high pressure continues over the southwest states. Afternoon temperatures will typically range from 105 to 110 each day across the warmer deserts. Slight cooling is expected next Monday as a weak and dry disturbance moves across the area, followed by a few degrees of warming early next week as higher pressure aloft returns. Dry westerly flow aloft will be the rule during the latter half of next week, keeping high temperatures near or slightly above seasonal normals.

# **CAL OES ACTIVATIONS**

## **Cal EOC Incident – 2014 Drought**

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

## **Cal EOC Incident – 2014 Drought**

### **Situational Summary**

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

**\*\*As our state's rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly. This winter's below average rain and snowfall worsens conditions in this third straight dry year.\***

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

## Situational Summary (Cont.)

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The final manual snowpack survey of the season was conducted on Thursday (May 1) and showed California snowpack at 18% of normal.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

# CAL OES MISSIONS

## Ongoing Cal OES Missions

- **2014-LAW-3898**, Tuolumne County Sheriff's SAR team will participate in a multi agency helicopter training. The training will include orientation to the Helicopter and its capabilities. Participating agencies will include Calaveras and Stanislaus County. Stanislaus County will be providing the helicopter resource for this training event. The Cal OES LDO coordinating resources.
- **2014-LAW-3871**, Ventura SO is requesting SAR mutual aid to assist in the search for a 34 year old off-duty Arcadia firefighter missing since Friday evening in the Los Padres National Forest, North of Fillmore, Ventura County. The MP was camping with a fellow fire fighter and, while at their camp, chased after his dog which had run off; he hasn't been seen since. His friend didn't report him missing until Sunday night, at which point an all out search was initiated with local resources. The mutual aid request is for 20-25 Type II/III ground searchers, 3 area K-9's (which Ventura has in county) and the use of the California Wing of the Civil Air Patrol (CAP) to be used as an aerial relay due to the drastic changes in elevation which is causing difficulty for operators to hit repeaters while communicating on radio's. San Luis Obispo, Kern, Orange, Los Angeles, and Fresno Counties all agreed to provide personnel. On 06/19/14, Ventura requested 20-25 searchers daily Friday through Sunday, with an operational period of 0600 to dark daily and the continued use of CAP through the weekend. CAP accepted the mission. Ventura also requested a Law Branch representative to conduct a search review of the search operation; a Cal OES Assistant Law Chief was approved to deploy. **Update:** On 06/19/14 at 1807 hours, Ventura requested three area search dogs. Ventura already had commitments from the handlers of three dogs assigned to the Los Angeles City Fire Department and the request was for these specific dogs. Request referred to Cal OES canine coordinator. Los Angeles Fire accepted the mission, without an expectation of reimbursement.

# CAL OES MISSIONS

## Ongoing Cal OES Missions

- **2014-LAW-3846**, Inyo County S.O. (ICSO) is requesting SAR mutual aid assistance to locate a missing 60 year old male last seen at 1845 hours on Sunday, 06/15/14, on the switchback above the trail camps on Mt. Whitney. The MP was descending the mountain with friends but they continued on without him as his pace slowed; they thought the MP would meet them back at camp but he never arrived. ICSO has been searching with local resources to no avail and are now requesting Kern County SAR to assist. Update, 2336 hours: ICSO advised they have not yet located the MP however Kern SAR is on the mountain heading toward the point last seen at approximately 14K'. Update: On 6/16/14, 0734 hours, ICSO advised they located some shoe impressions and the MP's large pack which he discarded at approximately 11K'. Kern SAR continues to assist. ICSO has also requested assistance from CHP H-80 out of Apple Valley as well as the Mono SAR team. **Update:** On 6/16/14, 0840 hours: ICSO is requesting additional, immediate SAR support from China Lake Naval Air Station for a helicopter to insert searchers in the Muir Lake Area at 11,500' elevation. The CHP helicopter is being utilized for aerial reconnaissance at higher elevations and not available for this mission. AFRCC was contacted and briefed. At 1022 hrs., China Lake NAS accepted the mission and was preparing to respond to the Lone Pine Airport as directed.

# CAL OES MISSIONS

## Ongoing Cal OES Missions

- **2014-LAW-3846, (Cont.)**
- **Update:** 6/16/14, 1404 hours, ICSO is requesting 12-16 Type I ground searchers for the operational period beginning 0600 hours, Tuesday, 6/17/14, to augment ground operations currently underway. L.A. Sheriff's Dept. and San Bernardino Sheriff's Dept. were contacted. LASD will provide 9 searchers. San Bernardino is not able to provide searchers for Tuesday but will work on putting a team together for Wednesday, 6/18/14. Offers of Type I support also came in from Monterey, Marin, Contra Costa and the BAMRU Team out of San Mateo; those offers are on hold pending an additional request from ICSO. Both CHP H-80 and the China Lake NAS helo's will assist on Tuesday. It was also learned that the large pack located on the trail at 11,500' was not that of the MP, but was placed by his friends for the MP. **Update:** 6/17/14, 0925 hours, ICSO is requesting a significant ramp up in Type I personnel for Wednesday's (6/18) Operational Period. LDO secured 40 Type I searchers from San Diego, Orange, San Bernardino, Marin, Contra Costa, Monterey and BAMRU (San Mateo). Contra Costa may be sending additional resources on Wednesday. At 1415 hours ICSO advised that with the influx searchers on Wednesday, they will need a larger capacity helicopter for insertion/extraction of high altitude teams in addition to those currently deployed from China Lake NAS (max capacity 3) and Apple Valley CHP (max capacity 2). The larger airship will be used to transport multiple teams of 4-6 personnel to an elevation up to 12-13K' for insertion in the AM and extraction in the PM. LDO contacted CNG at 1427 hours with the request. CNG approved mission at 1555 hours and will send a CH-47 tonight. All mutual aid personnel will report to the Lone Pine Airport for an 0700 hours briefing on Wednesday, 6/18.

# CAL OES MISSIONS

## Ongoing Cal OES Missions

- **2014-LAW-3846, (Cont.)**
- **Update:** On 6/19/14 Type I ground teams from Marin, Contra Costa, Monterey, BAMRU (San Mateo), Los Angeles, Kern, Orange, San Bernardino, San Diego and Mono continued to search throughout the day on Wednesday but the MP still has not been located. All LA SAR Teams demobilized last evening and were en route home. No new requests for ground searchers was made for Thursday's Operational Period. ICSO has requested the CNG's CH-47 helo and crew to extend through Friday. LDO contacted CNG to make the request and it was approved through Thursday, at which point it will be re-evaluated. ICSO also requested 4 Water certified (C2) HRD K-9's for Thursday. The Cal OES Law Branch K-9 Coordinator secured 1 Area/C2 Team and 1 Water team. ICSO also requested a boat with live sonar capabilities to work a particular lake at 11,600' elevation on Thursday or Friday. LASD was contacted and is working to support the request. **Update: 6/20/14:** On 6/19/14, Inyo County requested 30 Type 1 searchers daily for operational periods on Friday, Saturday and Sunday. They also requested continued use of the CNG CH47 helicopter. LDO contacted the CNG, who agreed to extend their mission and support the search through the weekend. LDO contacted Fresno, LA, San Bernardino, and several teams from the Bay area for ground resources. Resources for Friday were scarce but several agencies agreed to provide personnel for Sat and Sun. At about 1700 hours, a US Forest Service helicopter located a body at about the 12,000 foot level. The body was confirmed to be that of the missing person, but there was not sufficient daylight hours left to attempt a recovery. All mutual aid resources were released, with the exception of the CNG helicopter. The helicopter will be used on Friday morning to assist Inyo County personnel with the recovery of the body. Mission to remain active pending release of the CNG helicopter.

# CAL OES MISSIONS

## Ongoing Cal OES Missions

- **2014-LAW-2798**, El Dorado County is planning an in-county SAR exercise on 07/15/14 for their volunteers and have requested the assistance of the California National Guard (CNG) aviation assets to support the exercise. Elements of the exercise will include an orientation to the various CNG air assets (H72, H60 and CH47), hoist training, patient packaging for air evacuation and ground team insertion and extraction training.
- **2014-LAW-2679**, The 95th CST will provide Joint Hazard Assessment Team support in support of SFPD's Special Operations Bomb Squad at the 2014 Bay to Breakers Marathon. Radiation detection teams will survey background levels of radiation as part of the overall security plan. The 95th deployment will include advanced planning and pre-positioning prior to race day.
- **2014-LAW-2483**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2481**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2478**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NASCAR Racing Event at Sonoma Raceway June 20-22. They will assist with advanced planning and be pre-positioned prior to the start of the event.

**Mission:**

We protect lives and property, build capabilities, and support our communities for a resilient California.

*We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.*
